

SECRET/NOFORN - SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Session Procedures Report (S/NF/SK)

-----  
PROJECT NUMBER: 8718

SESSION NUMBER: 1

DATE OF SESSION: 2 NOV 87

TARGET COUNTRY: IRAN

REFERENCE:

MISSION STATUS:

TECHNIQUE UTILIZED: CRV

SOURCE IDENTIFIER: 018  
-----

SG1A

2. (S/NF/SK) Source Tasking: Only the encrypted coordinates (supplied) were provided the viewer at the outset of this session.

3. (S/NF/SK) Summary: The viewer's summary and sketches are attached. The data pertaining to what seems to be an airfield was produced as a result of an exploration of the concept [destination]. 018's time line is particularly interesting.

4. (S/NF/SK) Comments: The monitor is confident that 018 acquired and described the target.

## memorandum

J  
NOV 5

DATE: 2 November, 1987

REPLY TO  
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/SS)

SG1J TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018  
Session date: 2 NOV 87
2. (S-SS) The session began with impressions of a structure. It is metallic, rounded, hollow, and ribbed (see sketch, page 3 and sketch on page 7, which may be of another object.). There is a very bad smell to this place.
3. (S-SS) Moving from that series of impressions to a vantage point of 1000 ft. up, there was an impression of a long, straight, flat object in an area which is flat, hard, and has the brown and green of (ADL vegetation) (see sketch, page 9).
4. (S-SS) When cued with describing the actual destination of the object, there was a very strange feeling of crinkly (stiff but giving) cloth. The area appeared completely dark.
5. (S-SS) In response to the cueing "How does it get there?", there was the perception of an arrival from the air on a path which is irregular in that it drops, flattens out, drops, flattens out, and then drops slowly to the final destination (see sketch on page 10).
6. (S-SS) Cued with the question "When does it get there?", a time line was drawn (see time line, bottom of page 10) with the following responses:
- There is a single time in the past (first tick mark).
  - There is another single time in the recent future (2nd tick mark).
  - Some time after that, there is a short series of many "arrivals", followed by a time of no "arrivals".
  - Some time after that, there is a long series of "arrivals" which may last far into the future.
